Menabev is one of the leading franchise bottlers for PepsiCo and a market leader in the Liquid Refreshment Beverages (LRB) market. Menabev is looking to streamline and automate the manual tasks in the processing a supplier invoice using a rule driven workflow

Business Challenges

Compliance to timely payments

Time consuming manual process

Prone to transactional errors because of manual touchpoints

Cherrywork Accounts Payable Automation

Solution

- Incture will deploy the accounts payable automation software solution (APA) as per customer requirements which will integrate with the SAP S4 HANA Cloud – ERP at Menabev.

- Application will enable easy processing of the invoice with defined workflow. Supplier can send invoices to email which will be further picked up and processed till the invoice is paid in S4

Outcome

•Visibility and tracking of supplier invoices from receiving till payments.
• 60 to 80% reduction in manual work. Elimination of email-based approvals
• On time payments leading to dynamic payment terms-based discounts
• Central repository of invoices for audit compliance
